

Registering a Minor in SHIELD T3 Scheduling

1. To add the dependent, select Dependents in the menu
2. Click Add New Dependent to open registration screen

1. Once a new dependent has been added the participant can use the Dependents menu option to open their record with the Launch button
2. To switch between the parent/guardian account and dependent account select the name in the upper right to toggle between dependents or Exit Dependent Mode
3. Upon subsequent logins, the participant will be presented with a Select Dependent screen. The user will either select their dependent to access the portal as the dependent or press cancel to use the portal under their name.
